

VICTOR Impact Questionnaire: Patient, Family and Carer

Project title:

Organisation:

Thank you for agreeing to help. We would like to understand your experience of being involved in a research study. We are looking at the study to see what the impact has been in our organisation and people using our services, so that we can share this with other people and learn from it for this study and for research in the future.

We hope to produce impact case studies about our research, and will also produce information for presentations, the annual plan and our website.

Please read through all the questions before completing the form to help avoid duplication of answers.

Because we are speaking to only a handful of people involved in the study, it is possible that what you say will be identifiable so please let us know if you wish for anything to be kept confidential.

Are you happy for your answers to be used in this way? Please circle your answer.
